

NEAR NORTHWEST MANAGEMENT DISTRICT | LIVABLE CENTERS PLAN

Vision Statement: Transform Antoine into a destination intertwined with the waters of White Oak Bayou and Vogel Creek, linked to the heart of Houston by waterside trails and enhanced transit, punctuated by unique parks and community gardens, to be reborn as a walkable, bikable mixed-use corridor anchored by landmark buildings and lively public spaces.

Enhance the **Five Bridges** at Antoine, West Little York and Victory crossing White Oak Bayou and Vogel Creek to celebrate the waterways with a signature look, new trails at water's edge.

Create **White Oak Gardens**, a regional destination park, with a location backing up to the White Oak Bayou. This project has the ability to leverage the trail and greenway system while establishing a regional landmark on Antoine that draws visitors from near and far.

Coordinate redevelopment of **Bayou Boulevard at White Oak**, on property formerly occupied by deteriorated and abandoned multi-family projects and transform De Soto Street into a linear water channel that connects a proposed park at the White Oak Bayou at the east end with a proposed plaza and water feature visible from Antoine at the west end.

Develop **White Oak Station**, a multi-modal transit hub with a signature express bus service that will also accommodate light rail transit on the Burlington Northern line in the future.
